

LED Light Boxes with Rimless Textile Panel

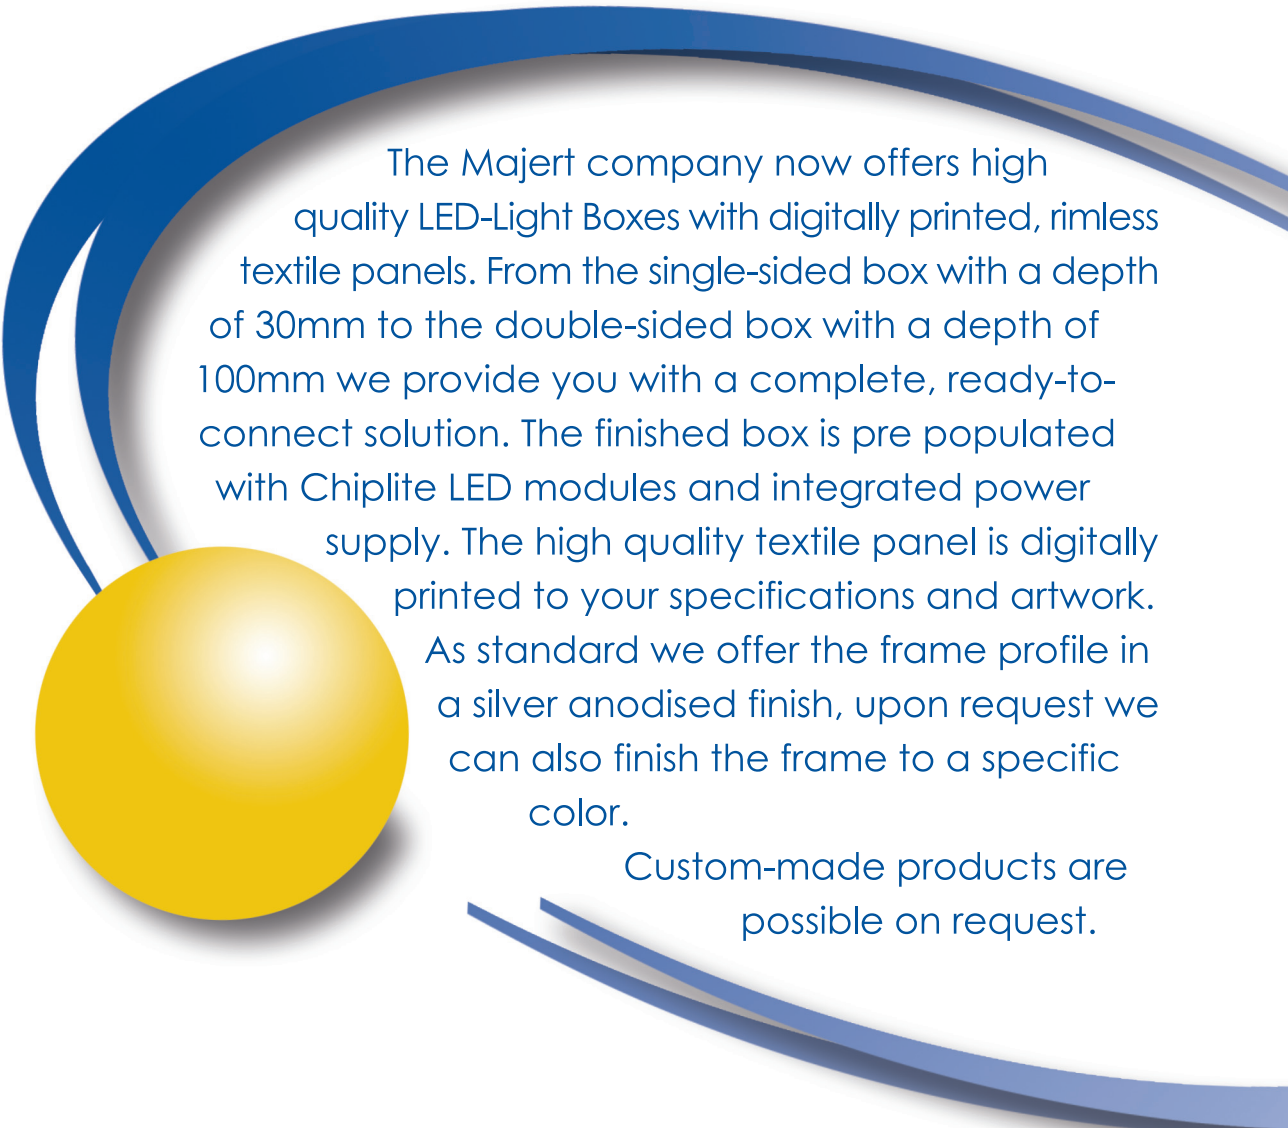

Single & double sided options ●

Depth from 30 to 100 mm ●

Pre populated with Chiplite LEDs ●

Digitally printed PopIn/PopOut
silicon edge textile panel ●

Complete and ready for installation ●

The Majert company now offers high quality LED-Light Boxes with digitally printed, rimless textile panels. From the single-sided box with a depth of 30mm to the double-sided box with a depth of 100mm we provide you with a complete, ready-to-connect solution. The finished box is pre populated with Chiplite LED modules and integrated power supply. The high quality textile panel is digitally printed to your specifications and artwork. As standard we offer the frame profile in a silver anodised finish, upon request we can also finish the frame to a specific color.

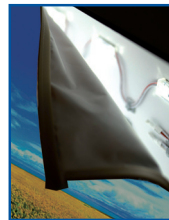

Custom-made products are possible on request.

Overview of the profile depth:

Profile Depths (Single Sided Only)
30 mm, 40 mm, 50 mm, 60 mm, 100 mm

Profile Depths (Single & Double Sided)
60 mm, 100 mm
